Get Firefox for Windows, macOS, Linux, Android and iOS today! Get Hola for Mac OS X You can run Hola on Mac OS X using free Chrome or Firefox browser extension.. If you do not give an extension permission to run in private browsing, it should still work normally in non-private browsing, unless the extension explicitly uses features that require private browsing access (like opening new tabs in a private window).. Extensions in private windows An extension that runs in private browsing windows could be problematic, if it has access to information you would rather keep private.. Start using Hola, it's free You can also download Hola for iOS First, double click 'HKEYCURRENTUSER', then click 'Software', and look for the 'Hola' folder.. Connect to 10 Devices One Hola Premium account will cover 10 devices at once, providing you 10 times the protection.. Any VPN software without Kill Switch could spoil the user identity when gets interrupted.. Firefox lets you decide which extensions are allowed to run in private windows Additionally, an extension is not enabled for private browsing by default.. Put Firefox on all your devices An extension that runs in private browsing windows could be problematic, if it has access to information you would rather keep private. 0041d406d9 [Unduhan Aplikasi Pmp Book Español](#)
